

How to Access Level Data's Validation Summary Report

Located within the State Data Validation Suite (SDVS) of services is the “Validation Summary Report”. This reporting service is available for all users to see various statistics based on the number of records in violation of validation rules for your state.

Access to this service requires activation from Level Data. Once activated, users will have an additional hyperlink labeled as “Validation Summary Report” within the Level Data Apps menu or icon. It is highly recommended that once this service is activated that the SysAdmin should disable the page for users that shouldn't have access.

The user will see the following screen displaying a list of rules that have violations found. This summary will be displayed in descending order of how many records are in violation.

If the user is logged into the District Office, they have the ability to click a drop-down arrow to see a further breakdown of violations by school:

Demographics	
Validation Rule	Count
Missing/Invalid MARSS Number	15657
School Name	Count
Apple Grove High School	647
Scheduling High School 1	610
Scheduling High School 10	610
Scheduling High School 11	610
Scheduling High School 12	610
Scheduling High School 13	610
Scheduling High School 14	610

A district user also has the ability to filter based on school by clicking on the “School Filter” link. From there, they can select the desired school(s) so that only those errors are displayed in the results list. re not associated with any active or inactive students within the system.

School Filter
2 schools selected

- Apple Grove High School
- Apple Grove High Summer

School

- Cherry Hill Middle School
- Common Core State Standards

Middle School

- District

In this example, only Apple Grove High School and Cherry Hill Middle School were selected. The summary screen for individual rules will now only show those entries making it easier for the user to identify where efforts may need to be focused to get data cleansed:

Validation Rule	Count
Missing/Invalid MARSS Number	1133
School Name	
Apple Grove High School	647
Cherry Hill Middle School	486
Missing/Invalid Transportation Category	1133

There is an option in the School Filter area to clear the current filter for subsequent filtering needs:

Level Data Validation Summary [Export](#)

School Filter
